Status Construction underway

Morgan Park Academy, an independent school over 130 years old, is at the heart of Chicago's Historic Morgan Park neighborhood. The beautiful campus has old ivy covered brick buildings around a historic landscaped quad. While the school has flourished for well over a century as a center for academic excellence, the campus buildings and facilities are in need of major renovation and expansion. This master plan was developed through a series of workshops and charrettes to develop a long term vision and campus master plan, and three dimensional development scenarios for future buildings. The Master Plan has helped raise nearly \$5 million in funds for a new gymnasium that is targeted for 2007 completion.
